ACCOUNTING - INVENTORY - SALE - PURCHASE

Humanism & Linux has been a heady-visionary mix for the founders of OpenLX, resulting in Innovative Ideas, Products & Services.

OpenLX is a customer-centric Startup, always brining the best for its customers, never compromising in delivering just 'the Best".

This has led to a number of achievements, for which OpenLX thanks everyone participating in the development of Linux and the Humanists, who helped us develop a vew way of looking at the world, moving towards a Universal Human Nation :

- World's first Linux based Financial Accounting & Inventory Package – www.Kalculate.com

- India's first Free-to-download, Open-Source Linux Operating System- www.OpenLx.com

imagination and creativity can change the WORLD

- First to introduce KOHA in India
